EDUCAUSE Academic Communities: Teaching and Learning + Student Success

Malcolm Brown
Kathe Pelletier

Outcomes

- Understand the EDUCAUSE framework for Academic Communities that includes Student Success and Teaching and Learning
- Identify potential opportunities to collaborate cross-functionally to promote teaching, learning, and student success
- Identify potential opportunities to share and highlight work happening on their campuses with the broader EDUCAUSE community
Do you identify your role as:

- Student Success
- Teaching and Learning
- Both
- Neither
On your campus, which of these are outcomes associated with “student success”?

- Retention
- Well-being
- Becoming a citizen
- Closing equity gaps
- Successful completion of a course

On your campus, which of these do you formally measure as a part of teaching and learning?

- Graduation rates
- Demonstrated learning outcomes
- Student satisfaction
- Instructor satisfaction
- Student grades
On your campus, how do teaching and learning and student success staff work together?

- Closely and effectively
- Minimally but effectively
- Closely but with friction
- Minimally but with friction
- Not at all

To Spark Real Innovation, Trustees and Presidents Need to Start Mixing it Up
Student success
• Advising
• Career counseling
• Student well-being
• Student financial wellness

Teaching & learning
• Learner success
• Instructor success
• Student degree success
• Student advising
Time for a poll!
What do you like about this model?

What would you change about this model?

How does this model make you feel?

- Threatened
- Disoriented
- Empowered
- Excited
Which of these areas does your work impact?

<table>
<thead>
<tr>
<th>Learners</th>
</tr>
</thead>
<tbody>
<tr>
<td>Learning principles and best practices</td>
</tr>
<tr>
<td>Learning technologies</td>
</tr>
<tr>
<td>Whole student</td>
</tr>
<tr>
<td>Academic advising and student supports</td>
</tr>
<tr>
<td>Student success technologies</td>
</tr>
<tr>
<td>Learning environments</td>
</tr>
<tr>
<td>Data and analytics</td>
</tr>
<tr>
<td>Evaluation and continuous improvement</td>
</tr>
</tbody>
</table>

In which of these areas do you wish you had more help?

<table>
<thead>
<tr>
<th>Learners</th>
</tr>
</thead>
<tbody>
<tr>
<td>Learning principles and best practices</td>
</tr>
<tr>
<td>Learning technologies</td>
</tr>
<tr>
<td>Whole student</td>
</tr>
<tr>
<td>Academic advising and student supports</td>
</tr>
<tr>
<td>Student success technologies</td>
</tr>
<tr>
<td>Learning environments</td>
</tr>
<tr>
<td>Data and analytics</td>
</tr>
<tr>
<td>Evaluation and continuous improvement</td>
</tr>
</tbody>
</table>

In which of these areas do you want to participate more?

<table>
<thead>
<tr>
<th>Learners</th>
</tr>
</thead>
<tbody>
<tr>
<td>Learning principles and best practices</td>
</tr>
<tr>
<td>Learning technologies</td>
</tr>
<tr>
<td>Whole student</td>
</tr>
<tr>
<td>Academic advising and student supports</td>
</tr>
<tr>
<td>Student success technologies</td>
</tr>
<tr>
<td>Learning environments</td>
</tr>
<tr>
<td>Data and analytics</td>
</tr>
<tr>
<td>Evaluation and continuous improvement</td>
</tr>
</tbody>
</table>
In which of these areas would you like to see more programming?

- Learners
- Learning principles and best practices
- Learning technologies
- Whole student
- Academic advising and student supports
- Student success technologies
- Learning environments
- Data and analytics
- Evaluation and continuous improvement
