Getting a new SkyDrive account

To use SkyDrive, you need a Windows Live ID. If you don’t have one, go to www.skydrive.com

Click on Sign up

One trick: click on “Or use your own email address”

Fill in the rest of the form and click the Accept at the bottom.

Go to your email account (the one you put under alternate email address) and Accept the agreement.

Once you get in, click on Get SkyDrive apps on the left side if you want to have a SkyDrive folder on your computer.
